

Upgrade Instructions

We are continually committed to improvement, with our users at the forefront of our priorities. Therefore, we release updates quarterly, incorporating new features and addressing reported bugs. Keeping your Chemdash up-to-date with these upgrades is essential for achieving maximum performance and ensuring the best possible user experience.

To update your Chemdash version, follow these steps:

1. Download the latest version of Chemdash, either shared by your trusted Partner or directly from the official Serstech website. Access the download option in the main menu under 'Support' and then 'Downloads.'
2. Open the downloaded Chemdash file and follow the steps outlined in the wizard.
3. Chemdash upgrade process is finalised
